## Introduction

Section 88P of the School Standards and Framework Act 1998 (the Act) requires every local authority to make an annual report to the adjudicator. The Chief Schools Adjudicator (CA) then includes a summary of these reports in her annual report to the Secretary for State for Education. The School Admissions Code (the Code) sets out the requirements for reports by local authorities in paragraph 6. Paragraph 3.23 specifies what must be included as a minimum in the report to the adjudicator and makes provision for the local authority to include any other issues. The report **must** be returned to the Office of the Schools Adjudicator by **30 June 2017**.

The questions have been revised for 2017 with the purpose of:

- a) making the information gathered statistically robust and as useful as possible to the local authorities which provide the information; that is: the Office of the Schools Adjudicator (OSA) which receives the information; the Department for Education (DfE) to which the CA provides her annual report; and the children and families for whom the Code is designed to make sure that places are allocated and offered in an open and fair way;
- b) minimising the work required by local authorities in providing information; and
- c) avoiding duplication of effort.

This revised format therefore, in addition to statutory requirements as described in the Code, explores: points raised by local authorities in previous reports and matters which have arisen in the CA's Annual Report and areas of interest to the DfE. If information is already collected elsewhere, such as the number and type of schools and data relating to appeals, then it is not asked for again here but will be available for inclusion in the CA's Annual Report.

## Information requested

### 1. Looked after children and previously looked after children

It is a requirement of the Code that there is information in the local authority's annual report about how admission arrangements in the area of the local authority serve the interests of looked after children and previously looked after children.

- a. How well do admission arrangements in your local authority area serve the interests of looked after children?

Not at all                       Not well                       Well                       Very well

- b. How well do the admission arrangements in other local authority areas serve the interests of your looked after children?

Not at all                       Not well                       Well                       Very well

- c. How well do admission arrangements in your local authority area serve the interests of previously looked after children?

Not at all                       Not well                       Well                       Very well

Please give examples of good or bad practice or difficulties which support your answer and provide any suggestions for improvement:

There are strong arrangements in place to support this. Doncaster's Virtual School for Looked After Children monitors and drives the admission of Looked After Children. The LA Admissions Team has a written protocol and a good working relationship with the Looked After Children Team and each placement is considered individually to ensure that all relevant factors are taken into account to ensure that pupils are placed effectively and in the most appropriate schools i.e. the LA will take into account not only the social benefits of a particular school but also actively identify schools in relation to their relative performance. Each admission is negotiated directly with the school by a member of the Looked After Children Team.

It can be difficult to identify children who were previously looked after.

## 2. Children with disabilities and children with special educational needs

It is a requirement of the Code that there is information in the local authority's annual report about how admission arrangements in the area of the local authority serve the interests of children with children with disabilities and children with special educational needs.

- a. How well served are children who have disabilities and/or special educational needs who have an education health and care plan or a statement of special educational needs that names a school?

Not at all                       Not well                       Well                       Very well

- b. How well served are children who have disabilities and/or special educational needs who do not have an education health and care plan or a statement of special educational needs?

Not at all                       Not well                       Well                       Very well

Please give examples of good or bad practice or difficulties which support your answer and provide any suggestions for improvement.

There are effective relationships and processes that support the effective admission of children with disabilities and SEN. We are in the process of refining our procedures so that all SEN/D placement decisions are taken within the context of the broader picture of placement and admissions within the borough.

## 3. Consultation

Paragraph 1.44 of the Code states who needs to be consulted if consultation on admission arrangements is required. The CA has noted that these requirements are not always fulfilled in the arrangements which come to the attention of the OSA and,

in particular, consultation with parents is not always as full as it should be. The OSA therefore wishes to get a better understanding of the wider situation and provide examples of good practice.

a. When did the local authority last consult on its arrangements?

Please provide the year.

2017

b. Please describe the means by which the local authority consulted with parents. Highlight all those means used:

- Committee paper on the local authority's proposals on admissions on the council's website.
- Consultation paper designed for parents on the local authority's proposals on admissions on council's website.
- Request to all schools to provide information on the local authority's consultation on its admission arrangements to parents and providing support to make this possible such as posters, leaflets and links to the relevant information on council's website for the schools' newsletters.
- Request to all early years settings to make information on the local authority's consultation available to parents by providing support to make this possible such as posters, leaflets and links to the relevant information on the council's website for the settings' newsletters.
- Social media (please provide some detail).
- Adverts in local press.
- Articles in local press.
- Posters in supermarkets, doctors' surgeries, early years health centres and similar

#### 4. Pupil, service and early years pupil premiums

c. Early years premium	No	N/A

d. If the local authority consulted on any of the pupil premiums please provide a summary of the responses received:

e. If you did not consult on introducing the **pupil premium** please indicate up to three main reasons for not doing so:

- Unsure how it will help social mobility;
- Unsure how it will reduce educational inequality;
- Could displace children living locally to a school;
- Potential transport cost to local authority for local children displaced;
- Some very disadvantaged families do not apply for free school meals and so would be further disadvantaged;
- Feel community needs already well met;
- Would introduce unnecessary complication;
- Lack of capacity; or

i.  Other (please explain):

f. If you did not consult on introducing the **service premium** please indicate up to three main reason for not doing so:

- Unsure how it will help social mobility;
- Unsure how it will reduce educational inequality;

- Other (please

explain):

g. If you did not consult on introducing **early years premium** please indicate up to three main reasons for not doing so:

- Application of early years' pupil premium priority for those attending a nursery at the school could unfairly disadvantage those who did not choose to use the nursery at the school;
- Application of early years' pupil premium priority for those attending a nursery at the school could affect the sustainability of other early years' provision;
- Unsure how it will help social mobility;
- Unsure how it will reduce educational inequality;
- Could displace children living locally to a school;
- Potential transport cost to local authority for local children who might be prevented from being offered a place at their local school;
- Some very disadvantaged families do not apply for free school meals and so would be further disadvantaged;

## 5. Determined arrangements

The OSA has noted that some admission authorities have not determined their arrangements as required by the Code and so seeks further information on this. Paragraph 3.2 of the Code requires local authorities to refer admission arrangements determined by other admission authorities to the Schools Adjudicator if they are of the view that they are unlawful.

- a. On which date did your local authority determine its arrangements for admissions in 2018?

14<sup>th</sup> February 2017

- b. When were the determined arrangements published on the local authority's website?

## 6. Co-ordination

How well did co-ordination of the main admissions round work?	Not well	A large number of small problems or a major problem	Well with few small problems	Very well
a. Reception				Yes
b. Year 7				Yes
c. Other relevant years of entry (please specify)				Yes
d. Please give examples to illustrate your answer:				

e. There has been an increase in the number of schools for which the governing body or academy trust is the admission authority. Please describe the effect of this on the admissions system in your area. We have continued with in year co-ordination for all Doncaster schools as this makes arrangements more cohesive and allows us to ensure more secure safeguarding and oversight arrangements for all children. Co-ordination across borders is effective where other L.A.s also have maintained responsibility for these arrangements. We have been able to maintain strong working relationships with all admission authorities through transition periods in the interests of establishing effective joint working practices.

o. What do you consider to be the advantages and disadvantages of this? We are able to monitor pupil movement in the local area and gain an overall picture of		

student mobility. This allows us to gain a strategic overview of inclusion and admissions arrangements and to provide effective safeguarding of vulnerable children and families.

## 7. Appeals

Information on the number of appeals lodged and the proportion upheld is collected separately so this information is not requested again. The information requested below is to add to that information.

Free	0	0	0	0
UTC	N/A	N/A	N/A	N/A
Studio	N/A	N/A	N/A	N/A

- d. How well do you consider hard to place children are served by the Fair Access Protocol in your area?

Not at all       Not well       Well       Very well

- e. Please explain your answer giving examples of good and bad practice; successes and difficulties as appropriate.

The protocols work well and are reviewed with schools annually. We have a difficulty with a free school who are not within the FA protocols. They feel that they were set up as a 'deliberate sized' school and this means that they are unable to accept children above their PAN. We are still in discussions with the DFE around this but are concerned about the potential impact upon precedent and parity within the protocol as a consequence of this.
